

schoolbox

Technology to transform K – 12 schools

NSIP Interoperability Tour presentation

# What is Schoolbox?

- All-in-one LMS, portal and intranet
- Designed specifically for K-12 schools
- Simplify communication, collaboration and learning
- Self-hosted or cloud
- Integrate your live SIS data
- 90,000+ users | 100+ Campuses
- Optimise traditional workflows and transform education at your school
- Australian made and owned

# Product benefits

## Communicate

Tear down the walls, enhance communication and connect people throughout your school community

## Collaborate

Facilitate collaboration inside and outside the classroom

## Learn

Optimise traditional workflows and transform education at your school

## Create

Nurture imagination and creativity throughout your school

## Manage

Maximise efficiency and your school will achieve more each day

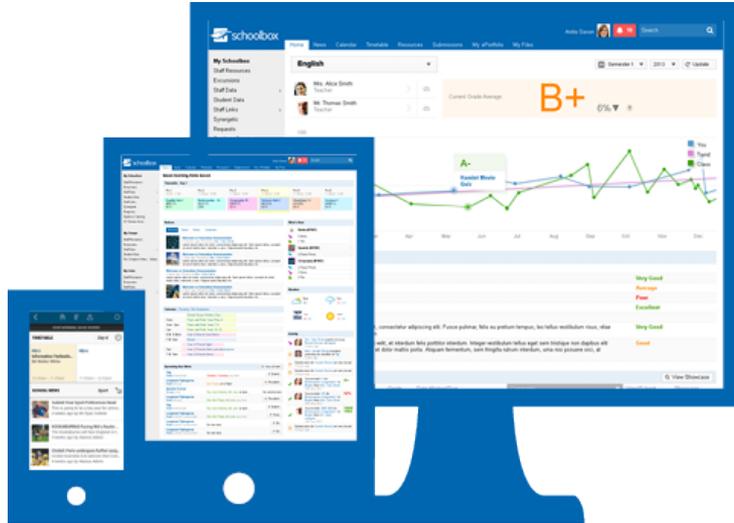

## Integrate

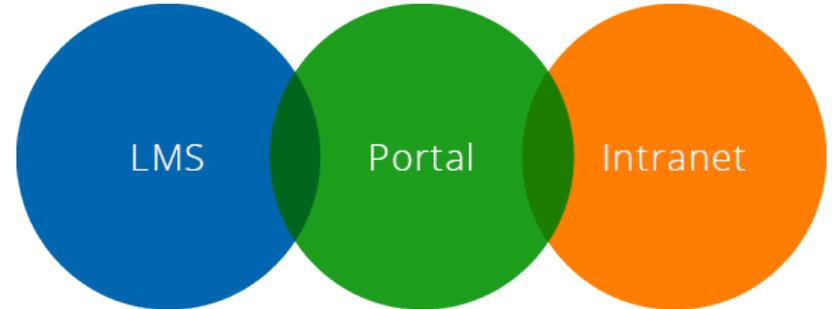

Centralise resources, avoid data duplication and simplify administration.

# Innovation

Mobile and device agnostic

All-in-one LMS, portal and intranet

- Harnessing social and collaborative learning
- Real-time formative assessment data
  - Removing information silos

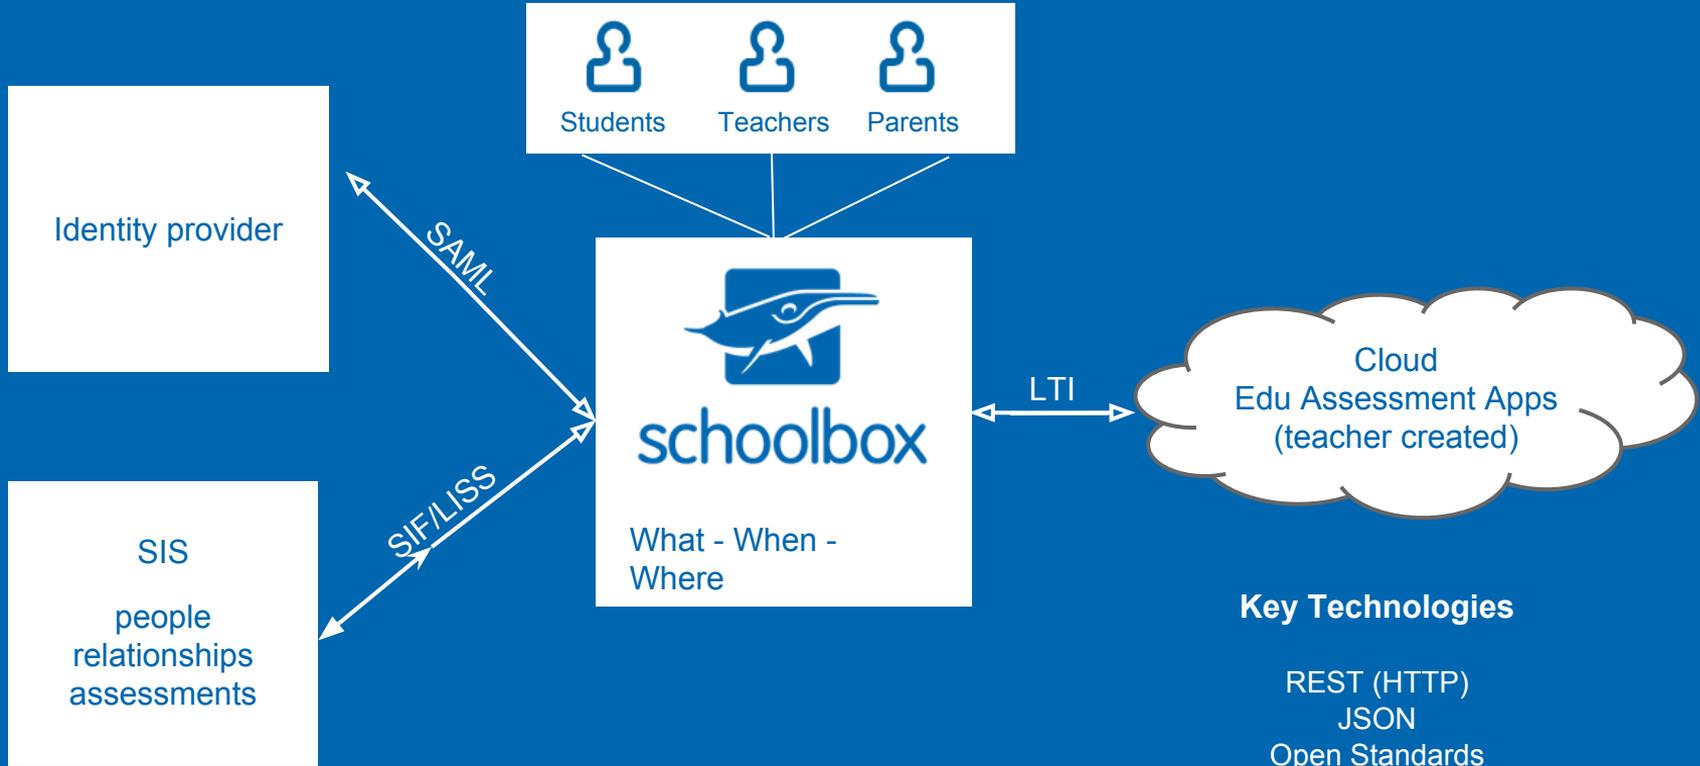

# Integration - One true source

- 6 different realtime connectors into SIS systems  
(direct SQL or REST API)
- We provides data via open formats  
(RSS, VCAL, REST APIs)

# The future for Interoperability

## Organisation
